Trillium 3000 Holter System

March 30, 1999

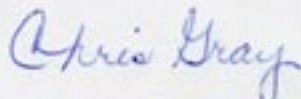

Dear Pete,

Our corporation purchased 12 Holter units from you in July, 1998. We wanted to let you know that we are pleased with the over all performance and the easy use of the system. From downloading the flashcard, scanning the report, to printing the full disclosure and full summary, your system has reduced our nursing time to half of what it was with our tape system. The nurses find it very quick and easy to pull up specific strips for our physicians and add them to the report.

The technical support has been ever present when needed, always courteous and quick to meet our needs. Upgrades to the system have been added already for a quicker and easier system. Anytime I have called, I have been met with friendly, reliable staff to help me whatever the need was.

Thank you for making our Holter Scanning a job that is fun, easy, and reliable.

Sincerely,

Christine Gray, RN  
Nursing Supervisor
